---

Chuck/Carl:

We had a meeting with Buddy concerning the Falcon Site and the preparation of the Removal AOC. Buddy indicated that it was enforcement's responsibility to prepare the AOC and not legal. I would appreciate it if you guys could work together to prepare the AOC as soon as possible since we have a PRP that has been eagerly awaiting a draft AOC to look at since October 3, 2002. I am providing you with the final version of the Action Memo which has a SOW as well as an estimate of what are approximate oversite costs will be.

Thanks for your help.
